

Forest School @ Home

1. The Challenge

Make a leafy portrait of your own face, or a whole family of weird and wonderful faces. Create a face peeping up from the woodland floor or peering down from a tree trunk.

Leafy faces and muddy smiles

2. Get going..... While on your daily exercise

Shape some mud into a face and look for...

- Leafy peepers
- Nuts for a nose
- Bark for a beard
- Grassy glasses

❖ ❖ Remember our important Forest School rule.....be kind to nature, so leave the growing plants and any bugs where you find them.

❖ It's all about what you can find.....so go and have FUN!

Forest School Challenges – Grown Ups Guide

❖ Whatever the weather for FS challenges you can wrap up the children and get them outside to get creative within nature.

❖ Forest School challenges are very flexible, any outside space will do and they are designed for the children to adapt them in any direction their imagination chooses to go.

❖ The 'doing' and having fun along the way is the real focus of these tasks rather than the end result

3. When you have finished take a muddy mug shot and upload it to your class blog or Tapestry Take a moment to feel proud of what you have achieved, great job!

Leave it for others to enjoy and make their own
